Jedi & Sith Progression

Base Unit

Pts	Name	W	CC/S	Traits	Equipment	Eq
19	Jedi/Sith	1	10/8	Shii-Cho, Block, Push	Lightsaber, LA, HA	2

Regular Promotion Table (2D10)

0-19 – Nothing Better luck next time.
20-34 – Extra Equipment Slot The Unit has learned to more efficiently equip itself for combat, giving it +1 Equipment Slot.
35-54 – New Force Power Roll for a force power, re-roll if you get one you already have.
55-74 – Lightsaber Training Roll for a lightsaber form to advance in. Re-roll if you are already at the max level for the one you roll, or if you are ineligible for the one you roll.
75-84 – Close Combat/Shooting Die +2 Choose, cannot exceed d12 (re-roll if both maxed).
85-99 – Promotion to Hero This unit is now classed as an officer and gets the bonuses an officer receives when creating your company. Your company cannot exceed 5 heroes, so re-roll if you're already at the limit.

Hero Promotion Table (2D10)

0-9 – Extra Equipment Slot The unit has learned to more efficiently equip itself for combat, giving it +1 Equipment Slot.
10-24 – Extra Wound Cannot exceed 3.
25-39 – Close Combat/Shooting Die +2 Choose, cannot exceed d12 (re-roll if both maxed).
40-54 – Roll for Force Power Re-roll if you get one you already have
55-59 – Choose Force Power
60-74 – Roll for Lightsaber Form Re-roll if you are already at the max level for the one you roll, or if you are ineligible for the one you roll
75-79 – Choose Lightsaber Form Choose an eligible lightsaber form to advance 1 level in
80-94 – Choose From any of the Above Results
95-99 – Roll for a Leader Only Trait Re-roll if you get one you already have.

Force Powers (D12)

1 – **Jump** (1) Use 2 actions to jump to a surface that's no more than 8" away in a straight line

2 – **Sprint** (1) When using both actions to move, gain an extra 3" of movement (total)

3 – **Battle Meditation** (1) +2 to shock recovery rolls

4 – **Pull** (3) Place the 3" template up to 12" away. Roll to hit each unit under the template on a 5+. If hit, the unit is pulled 3" towards you and gains a shock token. For each 1 rolled, this unit gains a shock token

5 – **TK Grab** (3) Make a task roll to be able to pick up something within 12", and move it up to 5" in any direction. Medium(5+) for objects, hard(8+) for other units. If lifted in the air, the object drops to the ground at the end of this unit's activation

6 (DS) – **Choke** (2) Ranged attack with a range of 6/12"

6 (LS) – **Heal** (3) – If in contact with a friendly, spend 1 action to remove 1 wound or all shock tokens on that unit

7 – **Lightning/Force Justice** (3) Acts like a ranged weapon with range 9/18" and Splash

8 – **Lightsaber Throw** (2) As an action, make a hard(8+) task roll to throw your lightsaber at a target within 12". On a 1, your lightsaber is dropped on the floor halfway between you and your target

9 – **Dominate** (3) For 2 actions, make a medium(5+) task roll, to take control of a non-hero, non-force wielder enemy unit, and take 2 actions with them. This does not affect that unit's turn, they can still be activated as normal later in the turn if they have not already activated this turn

10 – **Mind Trick** (2) When charged by an enemy, you may choose to make a hard(8+) task roll. On success the enemy gets to just outside your control zone and their activation ends

11-12 – **Choose any of the above**

Misc Traits & Force Powers

Shii-Cho (3) +1 in CC rolls with lightsabers

Conduit of Evil (2) If a dark side force user opponent gets a result that puts a shock token on this unit during close combat, make a hard task roll (8+) to transfer that shock onto the opponent instead.

Block (2) If shot at, make a task roll to try and block the shot. Hard(8+) for 12" or less, medium(5+) for more than 12"

Deflect (3) – After rolling to block, you must also make a shoot roll to see if the blaster bolt is reflected back at the target, rather than just instantly rolling to wound. Only works on energy weapons, not arrows etc. (0-12" 5+, 12-24" 8+, 24-48" 10+)

Push (3)Place the 3" template up to 12" away. Roll to hit each unit under the template on a 5+. If hit, the unit is pushed back 3" and gains a shock token. For each 1 rolled, this unit gains a shock token

Lightsaber Forms

1 – Form II – Makashi

Focused solely on lightsaber duelling, using precise and elegant movements such as fencing parries and ripostes to get the better of opponents, disarming or wounding them. A master of Makashi is almost impossible to get the better of at close range without using a physical advantage or overpowering them with the force.

I	II	III
Fancy Footwork (2)	**Riposte** (2)	**Brawler** (4)

2 – Form III – Soresu

Focused around defence and blocking. Mainly developed just to have a way of blocking blasterfire, but further specialization in this form can lead to the user being almost impossible to kill with blaster or lightsaber alike.

I	II	III
Cunning (2)	**Steadfast Defence** (2)	**Composed** (2) + **Armoured** (2)

3 – Form IV – Ataru

The most acrobatic form, and like form II, is intended for duelling purposes only. Practitioners use the force to augment their speed, agility and jumping to perform unpredictable acrobatic manoeuvres.

I	II	III
Slippery (1) + **Dodge** (2)	**Acrobatic** (2)	**Running Attack** (3)

4 – Form V – Shien

The first prong of the form V fork, is essentially a more aggressive adaptation of form III, using the lightsaber to direct blaster fire back at a target, rather than just blocking it.

I	II	III
Deflect (3)	**Steady** (2)	**Deadeye** (3)

5 – Form V – Djem-So

The second prong of Form V uses similar movements, but with the purpose of batting away the opponents lightsaber using physical strength, leaving them wide open to devastating counter attacks.

I	II	III
Disarm (2)	**Determined** (3)	**Defensive Fighter** (3)

6 – Form VI – Niman

Form VI is an amalgamation of the first 5 forms, and as such has no real advantages or disadvantages. This form was considered easy to learn, and favoured by consulars and diplomats as it allowed them to dedicate more of their time to other studies, but masters of this form could seamlessly integrate the use of force powers such as pushes, pulls and grabs into their fighting.

I	II	III
Smart (1)	**Strategist** (4)	**Sharp Tongued** (4)

7 – Form VII – Juyo (DS Only)

Known as the ferocity form. The most vicious form of lightsaber combat. Practitioners draw on their most aggressive and violent feelings to fuel their strikes. So much so that without proper care, users could turn into mindless animals, completely consumed by their emotions.

I	II	III
Ferocious (4) + **Brittle** (-1)	**Blood Frenzy** (2)	**Bloodthirsty** (3)

8 – Form VII – Vapaad (LS Only)

Similar to Juyo, although this form was developed for light side force wielders, and tried to prevent any risk of users falling to the dark side. Instead of their own passionate emotions, users would draw upon their opponents anger and hatred to fuel their strikes, creating a feedback loop of dark emotions, and ensuring the users emotions never strayed too far from the light.

I	II	III
Conduit of Evil (2)	**Flurry of Blows** (2)	**Unstoppable** (3)
